Leggi ebooks The Continuum Concept Jean Liedloff PDF, EPUB, mobi, *The Continuum Concept* introduces the idea that in order to achieve optimal physical, mental and emotional development, human beings - especially babies - require the kind of instinctive nurturing as practiced by our ancient relatives. It is a true 'back to basics' approach to parenting.

Author Jean Liedloff spent two and-a-half years in the jungle deep in the heart of South America living with indigenous tribes and was astounded at how differently children are raised outside the Western world. She came to the realisation that essential child-rearing techniques such as touch, trust and community have been undermined in modern times, and in this book suggests practical ways to regain our natural well-being, for our children and ourselves.
